AB The title comps., pourable and capable of suspending solids as well
as forming dil. aq. solns. without gelling, contain water, a
surfactant which in the absence of surfactant-desolubilizer forms a
non-pourable liq. crystal phase, and sufficient dissolved
surfactant-desolubilizer to give a stable spherulitic
compn. A liq. laundry detergent compn. contained Na
C10-14-alkylbenzenesulfonate 3.0, C9-11-alkyl sulfate 3.0, Na
C12-18-alkyl ether sulfate 14.3, ethoxylated C9-11 alcs. 4.2, fatty
acid 3.0, K2CO3 10.6, and triethanolamine 1.8%, the balance being
water and additives.
